

Information for Homeschool Students Enrolling at KDDC

If you have child who has been enrolled in a home school and you are wishing to enroll at KDDC for the 2021-2022 School year, please review the steps outlined below. If you were enrolled in Sumner County Virtual School last year, that is not homeschool and you will not need to follow these steps. Students from Sumner County Virtual will attend registration nights as usual.

Steps for Enrolling at KDDC from a homeschool:

- Attend new student registration on July 21st with all the appropriate documents which can be found on our website: <https://kddc.sumnerschools.org/>
- The student or students enrolling will be given a Math and an ELA assessment during this time that covers the standards of the most recently completed grade level.
- Parents will complete new student registration while students complete their assessments. Registration should only take 15-30 minutes, but it could take an hour or two for the completion of the assessments.
- Once new student registration is complete and the student/s have finished their assessments you are free to go.
- By Friday July 23rd, you will receive a phone call with the decision.
- You will then attend our Mustang Roundup registration night depending on your child's grade.
- Information for Mustang Roundup will be on the website in early July.
